ORACLE ON AWS: ACCELERATING THE CLOUD JOURNEY SENIOR EXECUTIVE DINNER

November 24, 2026
6:00 PM-9:30 PM

Central European Time

Join a select group of senior executives for a moderated discussion over dinner on the decisions that will define the next stage of Oracle modernisation on AWS.
Engage directly with Oracle and AWS leaders and compare experiences with peers responsible for critical data platforms.
Explore how to migrate Oracle workloads with confidence, strengthen resilience, simplify operations, and place trusted enterprise data at the centre of AI and analytics initiatives.
Leave with practical perspectives on the technology, commercial choices and migration support available to advance your organisation's cloud strategy.
An evening of focused conversation, connections and ideas you can apply to your priorities.
Topics to be discussed:
Business Continuity & Resilience for mission-critical workloads
Simplified operations, lower data movement and cost optimisation
Oracle database migration and innovation on AWS
AI and analytics using trusted enterprise data
Flexible commercial models, migration support and next steps

PARTNERS
