**THE AGENTIC ENTERPRISE: RUNNING
INDUSTRIAL OPERATIONS AT THE SPEED OF
AI**

November 10, 2026

6:00 PM-9:30 PM

Eastern Time

What if your operations could move faster than the challenges coming your way? Labor gaps, supply shocks, and shifting demand aren't slowing down. Join fellow industrial manufacturing C-suite leaders for an informal, candid roundtable on the agentic enterprise: AI that doesn't just report but plans and acts within the guardrails you set.

We'll compare notes on what's working, where to keep humans in the loop, and how to turn disruption into a lasting edge. No slides, no sales pitch. Seats are limited. Pull up a chair.

PARTNERS

We are currently accepting partnership opportunities for this event.
