MACHINES ARE LEARNING BUT CAN HUMANS FOLLOW SUIT?

November 17, 2021
5:30 PM-8:30 PM
Eastern Standard Time (EST)

Cybercrime is evolving at the speed of innovation, and so does cybersecurity. There's only one difference - the humans behind cybercrime are extremely motivated, savvy, and free from conventional morals. Cybersecurity, on the other hand, is bound by regulations, compliance, and conventional/traditional business ethics. As a leader, how do you break operational silos, alleviate data fatigue, maintain team motivation and ultimately protect your organization from increasingly sophisticated cyber threats?
