C VISION INTERNATIONAL

AGENDA

From OpenAI to AWS Bedrock: Mastering AI Model Migration in Production Full-Day Hands-On Workshop

Workshop

SPEAKERS

Sneha Malshetti
Senior Security Engineer
Ethos

Benish Kahn
Senior Solutions Engineer
LaunchDarkly

Why This Workshop Matters Now

Are you running OpenAI models in production but questioning their long-term fit? Many teams are exploring migration to AWS Bedrock's foundation models (Claude 3.7 Sonnet, Amazon Nova Pro) to gain better cost control, stronger security, and improved data sovereignty.

This full-day workshop will equip you with the frameworks, tools, and hands-on experience to migrate confidently - without disrupting production.

GENAI MODEL EVALUATION WITH LAUNCHDARKLY AND AWS: HANDS-ON WORKSHOP

November 13, 2025
11:30 AM-3:30 PM
Pacific Time

In this hands-on workshop, you'll learn how to implement and manage AI configurations using LaunchDarkly's powerful feature management platform integrated with Amazon Bedrock's AI capabilities.
By the end of this workshop, you will:
Set up a LaunchDarkly account and configure your Amazon Bedrock environment on AWS
Implement the LaunchDarkly SDK and LaunchDarkly AI SDK in a Python application
Create AI configurations in LaunchDarkly to enable dynamic control of which AI models and parameters are used without having to keep changing your application code
Connect your application to AI foundation models (FMs) hosted in Amazon Bedrock such as Anthropic's Claude and Amazon Nova
Implement tracking for user feedback and AI model metrics such as token usage, total cost and time to generate
Create and manage AI experiments using LaunchDarkly to compare accuracy of models from different providers

TOGETHER WITH

LaunchDarkly → aws
