### MASTERING OPERATIONAL RESILIENCE IN THE AGE OF DORA

**October 23, 2024**

6:00 PM-9:30 PM

United Kingdom Time

With the inevitability of digital outages and increasing regulatory demands, financial institutions face unprecedented challenges in maintaining robust, responsive, and resilient operations. Join us for an exclusive executive dinner on the critical business need for seamless and robust digital operations that meet regulatory compliance considering the Digital Operational Resilience Act (DORA). This intimate gathering will bring together thought leaders and decision-makers from the financial services industry to explore AI and Automation strategies that enable organizations to anticipate and respond faster to digital disruption, while protecting revenue and customer trust.
