SEVEN STEPS TO BUILDING A SECURITY CULTURE

December 06, 2023
11:00 AM-12:15 PM
South Africa Standard Time

In this virtual panel session, the speakers will collaboratively explore the nuanced concept of security culture within the African context. The discussion emphasizes the pivotal role of Security Culture as an indispensable component within holistic security programs, particularly in the dynamic landscape of emerging technologies. Each panelist, bringing diverse perspectives and experiences to the table, will contribute to a multifaceted understanding of how CISOs can effectively build and sustain a robust security culture. Drawing from their varied backgrounds, the speakers will provide practical examples and real-world scenarios tailored to the concerns and challenges faced by CISOs. The session aims to empower CISOs with actionable insights and strategies for cultivating a resilient security culture in the virtual realm, addressing the complex challenges of the ever-evolving security landscape.
