FROM BLIND SPOTS TO BOARDROOM: WHY MACHINE IDENTITY SECURITY IS A BUSINESS RISK, NOT JUST AN IT ISSUE

December 04, 2025
6:00 PM-9:30 PM
Central European Time

As cloud adoption accelerates, machine identities-- ranging from service accounts to APIs-- now vastly outnumber human users in modern digital ecosystems. This shift has introduced a new class of security challenges that can no longer be viewed as purely technical concerns. In this discussion, industry executives will explore why machine identity security is a critical business risk-- and how organizations can approach it as a strategic imperative. Learn how effective identity security can unlock secure cloud scalability, enable responsible AI innovation, and support long-term digital transformation goals.
