THE FORGOTTEN LAST LAYER OF SECURING DIGITAL TRANSFORMATION

October 01, 2024
5:30 PM-9:00 PM
Eastern Time

In an age of ever-evolving security threats and hybrid work environments, browser security has become a critical pillar in securing the business' most valuable assets and enabling a secure user experience. Join this roundtable to explore cases studies and strategies on: Closing the browser security gap to improve security posture Getting ahead of browser-enabled zero-day threats Navigating and identifying the business impact of browser security adoption
