ZERO TRUST SECURITY FOR ZERO OPERATIONAL DOWNTIME

June 27, 2023

3:00 PM-4:15 PM

Eastern Time

OT environment vulnerability and exposure to threats are at an all-time high which will only accelerate going forward. CXOs face a precarious balancing act of maintaining availability, uptime, and safety while deploying and maintaining world-class security. Hear how a comprehensive Zero Trust security solution for your critical assets in OT environments can help prioritize which assets are most critical and risky to the operation of the business and protect your OT assets, networks and remote operations.
