**THE INTERSECTION OF HUMAN TOUCH & AI
IN ELEVATING CUSTOMER EXPERIENCES**

November 19, 2024

5:30 PM-9:00 PM

Central European Time

In today's fast-paced digital landscape, the synergy between human touch and AI innovation is reshaping the way businesses

connect with their customers. In this session we will dive into how leading organisations are seamlessly integrating the power of AI with the irreplaceable essence of human touch to create unparalleled customer experiences. We will discuss the dynamic intersection of empathy-driven interactions and artificial intelligence, paving the way for a new era in customer engagement.
