FROM AI EXPERIMENTATION TO FRONTIER TRANSFORMATION: AN EXECUTIVE ROUNDTABLE FOR CIOs, CEOs & BUSINESS LEADERS

July 23, 2026

5:30 PM-9:00 PM

Central Time

AI is no longer a future initiative, it's becoming the foundation for how leading organizations drive growth, innovation, and competitive advantage.

Join Microsoft, Presidio, and a select group of executive peers for an interactive discussion on how organizations are moving beyond AI pilots to achieve enterprise-wide transformation. We'll explore how AI and agentic systems are reshaping employee experiences, reinventing customer engagement, streamlining operations, and accelerating innovation.

Together, we'll discuss the strategies, challenges, and opportunities facing today's leaders as they build the next generation of AI-powered enterprises.

Discussion Topics:

What defines a successful AI-driven organization?

Turning AI experimentation into measurable business outcomes

The emerging role of AI agents in the enterprise

Governance, security, and responsible AI adoption

Preparing your workforce and business for the future of AI

Share client use cases

Connect with fellow executives, share insights, and gain practical perspectives on building a roadmap for AI transformation.

Audience: CIOs, CEOs, CTOs, CDOs, and Senior Business Leaders

Space is limited to encourage meaningful peer-to-peer discussion.
