PREDICTING THE DATA AND AI REVOLUTION DINNER EVENT SERIES

November 06, 2024

5:30 PM-9:00 PM

Eastern Time

Join us for an exclusive dinner series where we delve into the transformative role of AI in the enterprise. Aiven, in partnership with GatePoint Research, surveyed over one hundred C-level executives in our Predicting the Data and AI Revolution. What's at stake? While many organizations are investing heavily in generative AI, less than 20% have moved beyond experimentation. The question is: how can you harness the power of AI to not only drive innovation but also safeguard your competitive edge amidst AI's inherent risks? Our discussions will: Examine the evolving AI landscape: Explore the divide between industry leaders and laggards. Uncover Key Challenges: How to navigate data risks, ensure compliance, and maintain innovation while driving revenue. Debate critical AI choices: Open-source vs. off-the-shelf LLM's – what's the most secure path forward? How important is private and proprietary data in fueling your AI strategy? Leave with actionable insights on how to align your AI strategy with business goals, ensuring sustainable growth in an increasingly AI-driven world.
