

# AGENDA

Viewing Cybersecurity with a New Lens: From Cutting Edge Prevention  
to Next Level Planning

## CISO Council

### SPEAKERS

**Bruce Hembree**  
Field CTO  
Palo Alto Networks +  
Cortex

**Cole Sinkford**  
Global Chief  
Information and  
Product Cyber  
Security Officer  
GE Renewable  
Energy

**Josh Dyba**  
BISO  
UnitedHealth Group

**Wagner Nascimento**  
Global Head of  
Information Security  
Synopsys

**Ashok Singh**  
Global Executive  
Director of  
Technology  
JP Morgan Chase

# VIEWING CYBERSECURITY WITH A NEW LENS: FROM CUTTING EDGE PREVENTION TO NEXT LEVEL PLANNING

**July 21, 2021**

10:45 AM-12:00 PM

Pacific Standard Time (PST)

Cyber criminals not only remain a step ahead... they are widening the gap. Today's global enterprise has to contend with a persistent adversary and an exponentially growing and complex risk landscape. Building a resilient cybersecurity strategy includes more focus than ever before. You have to put yourself in the shoes of the bad actors to truly see your vulnerabilities in a new way. Do you have the right prevention tools? How are you efficiently and effectively planning for a response? Does your full team know your incident response protocol? Are you ready when it matters most?

Join a panel of your peers to discuss these and much more.

## **Key takeaways:**

Understanding the adversaries view

Proper implementation of prevention tools

How to plan for response to potentially impactful incidents

## SPEAKERS

**Bruce Hembree**
