MIGRATE TO INNOVATE IN 2025: AI DRIVEN DATA ANALYTICS

October 21, 2025
5:30 PM-9:00 PM
Eastern Time

In today's world, AI-driven data analytics is reshaping business strategy, technology leadership, and decision-making, enabling business leaders to securely optimize and modernize hybrid infrastructure, enhance efficiency, and drive innovation. As AI continues to evolve, it is transforming how organizations extract insights, automate processes, and manage data at scale. This conversation will explore key topics such as leveraging AI for predictive analytics, strengthening data governance, cloud migration, security, and striking the right balance between automation and human oversight. With AI redefining the digital landscape, business leaders must navigate both challenges and opportunities to stay ahead, maximize business value, and build a more resilient and intelligent future
