THE BLIND SPOTS IN CYBERSECURITY: ARE YOU SEEING THE FULL PICTURE?

June 11, 2025

6:00 PM-9:30 PM

Central European Time

As businesses accelerate their cloud adoption, security blind spots are multiplying. AI-powered threats are evolving, compliance frameworks like NIS2 and DORA are redefining risk, and gaining full visibility across hybrid and multi-cloud environments remains a challenge.

Are your cloud security strategies truly effective, or are unseen vulnerabilities leaving you exposed?
