MAKING THE MOVE TO INTELLIGENT MANUFACTURING

October 11, 2023
5:30 PM-9:00 PM
Eastern Time

In a highly competitive global market, manufacturers must effectively collect and gain insights from data. Through these insights, manufacturers lower production costs, improve operational efficiency, optimize supply chains, create differentiating customer experiences, and deliver compelling services to customers. Join Adastra and AWS to discuss how the use of cloud IIoT / Data / Analytic platforms simplify and enable manufacturers to achieve these critical goals.
