IMPROVE PRODUCTIVITY WITH THREAT INTELLIGENCE & AUTOMATION

April 05, 2023
10:00 AM-11:00 AM
Central European Time

In The 2021 State of Enterprise Breaches, Forrester® found that enterprises spend a median of 37 days and a mean of $2.4 million to find and recover from a breach. Ensure your team is prepared for advanced threat actors. Join this fireside chat with Niall Browne, CISO at Palo Alto Networks, and guest speaker Allie Mellen, senior analyst at Forrester. They'll candidly discuss digital transformation, SOC automation and tactical security operations. Forrester recommends that security leaders advocate investment in digital transformation. This will help organizations be more adaptable while focusing on data and metrics to uncover prevalent attack vectors. Tune in to hear their unique perspectives on:

- The critical issues they see today in the SOC
- How security leaders can successfully incorporate threat intelligence
- Strategic technology upgrades to prioritize for digital and SOC transformation
- What they predict to be the biggest shifts in SecOps
