CYBER RESILIENCE IN AN UNCERTAIN WORLD

July 10, 2024

6:30 PM-10:00 PM

United Kingdom Time

2024 has seen a further surge in cyber-attacks across all sectors. Factors driving this surge include Geo-Politics, Cost of Living, AI and Cloud adoption. This intimate session will dive deep into a discussion of what these threats mean for the resilience of your business and strategies for preventing next-generation cyber breaches.
