ZERO TRUST WITH ZERO EXCEPTIONS: PROTECT YOUR PIECE OF THE CLOUD

October 26, 2022
3:00 PM-4:15 PM
Central Time

In a world of economic uncertainty and sophisticated threats, businesses need to securely develop cloud applications to safeguard

against exploits, malware and ransomware while delivering a positive economic impact. Protecting your core business and cloud-native applications requires security that is simple and comprehensive. This is where a strategic Zero Trust architecture helps! In this session, you'll learn how Zero Trust principles deliver on the promise to secure your cloud applications that are the lifeblood of your business.
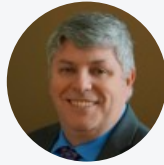

CHAIR

Steve Zalewski
Former CISO
Levi Strauss & Co.
