**CYBER RESILIENCE: THE APPROACH, THE
PROCESS, THE IMPACT**

November 18, 2024

5:30 PM-9:00 PM

Pacific Time

Join us for an exclusive event on Cyber Resilience, where we'll explore strategies to ensure your organization can withstand and recover from cyber threats in the cloud. Security leaders will delve deep into the key pillars of cyber resilience: preparation, detection, response, and recovery, as well as integrating cloud security measures and incident response plans. This event will provide practical insights into how businesses can maintain operational continuity in the face of cyberattacks, from ransomware, misuse of stolen credentials, abuse of vulnerable cloud resources and impacted systems. Don't miss this opportunity to hear from experts, fortify your cybersecurity posture and safeguard your business.
