**MACHINES ARE LEARNING BUT CAN
HUMANS FOLLOW SUIT?**

October 03, 2024

6:00 PM-9:30 PM

United Kingdom Time

Cybercrime is evolving at the speed of innovation, and so does cybersecurity. There's only one difference - the humans behind cybercrime are extremely motivated, savvy, and free from conventional morals. Cybersecurity, on the other hand, is bound by regulations, compliance, and conventional/traditional business ethics. As a leader, how do you break operational silos, alleviate data fatigue, maintain team motivation and ultimately protect your organization from increasingly sophisticated cyber threats?

PANELISTS

Jason Steer
CISO
