BEYOND THE DASHBOARD: AGENTIC AI FOR DISTRIBUTION LEADERS

November 12, 2026

6:00 PM-9:30 PM

Eastern Time

Margin pressure, supplier volatility, and customers who expect answers now aren't easing up. Join fellow distribution C-suite leaders for an enjoyable dinner and candid conversation on the agentic enterprise: AI that doesn't just report, but plans and acts across inventory, pricing, and fulfillment within the guardrails you set. Over dinner, we'll compare notes on what's working, where to keep humans in the loop, and how to turn disruption into a lasting edge. No slides, no sales pitch. Just great food and thoughtful conversation with your industry peers to exchange experiences, challenge ideas, and learn from one another. Seats are limited.

PARTNERS

We are currently accepting partnership opportunities for this event.
