REIMAGINING INSURTECH: NAVIGATING THE FUTURE OF DIGITAL TRANSFORMATION

March 25, 2025
5:30 PM-9:00 PM
Eastern Time

The insurance industry is undergoing a digital transformation driven by changing user expectations, new technologies, and the need for efficiency. This session will explore how insurers can balance innovation with regulatory requirements, covering trends in InsurTech, automation, data analytics, and AI. Experts will offer practical insights on updating legacy systems, optimizing distribution channels, and fostering agile change management. Attendees will learn strategies for overcoming challenges like data privacy and resistance to change, with actionable takeaways to future-proof their businesses.
