DRIVE ROI WITH AI: A BUSINESS BLUEPRINT FOR SUSTAINABLE VALUE

July 29, 2025
5:30 PM-9:00 PM
Pacific Time

Join an exclusive, invite-only dinner where senior executives come together with leading AI strategists to explore how to turn artificial intelligence into tangible business value. During this curated experience, guests will be introduced to a practical framework that connects AI capabilities directly to revenue growth, cost efficiency, and risk mitigation.
The evening will feature real-world case studies showcasing how organizations have successfully moved from experimentation to production—and realized measurable returns. Through a guided roundtable discussion, participants will identify high-impact opportunities tailored to their own strategic goals.
Each attendee will walk away with a personalized action plan, peer-validated insights on AI investment priorities, and a complimentary follow-up session to accelerate one promising initiative.
