BUILDING TRUST IN DEVSECOPS: VALIDATING REAL RISKS AND MAXIMIZING SECURITY ROI

December 17, 2024

5:30 PM-9:00 PM

Eastern Time

Join us for a dinner event dedicated to bridging the gap between development and security teams. This discussion will focus on how organizations can validate that development work aligns with actual security risks, overcoming barriers to collaboration, and building trust between teams. We'll explore common obstacles that hinder seamless security integration—from growing vulnerabilities to technology and communication gaps—and dive into the tangible ROI of prioritizing and mitigating real risks. Connect with industry peers to gain insights and strategies that ensure your security investments drive meaningful, measurable impact.
