# AI ON THE RISE: STRENGTHENING CLOUD SECURITY IN THE AGE OF INTELLIGENT THREATS

**December 02, 2024**

6:00 PM-9:30 PM

Central European Time

As AI continues to evolve, the need for robust cloud security becomes more critical than ever. With intelligent technologies driving both innovation and more sophisticated cyber threats, organizations must adapt their cloud security strategies to stay ahead. This round table dinner will focus on the growing role of AI in shaping modern cyber threats and explore how your organization can enhance cloud security in the age of AI.

TOGETHER WITH

**CYBERARK®**  
THE IDENTITY SECURITY COMPANY™
