THE RISE OF AI AGENTS: DRIVING AUTONOMOUS DECISIONS IN MANUFACTURING

April 23, 2025
5:30 PM-9:00 PM
Central Time

AI-driven autonomous agents are revolutionizing decision-making across manufacturing enterprises. From optimizing supply chain operations to transforming financial planning and accelerating marketing and sales impact, AI is shifting businesses from reactive to proactive, data-driven execution. Join AWS and industry leaders for an exclusive roundtable exploring how AI agents are driving measurable business outcomes in manufacturing.
