HOW TECHNOLOGY LEADERS ARE SCALING AGENTIC SOFTWARE DELIVERY

May 28, 2026
5:30 PM-9:00 PM
Eastern Time

AI is already shaping how work gets done across the business. It is writing code, influencing decisions, and accelerating output across teams. Most organizations have adopted it quickly, but very few have changed the systems underneath to support it.
Join industry leaders to discuss:
AI Agents in the software delivery lifecycle (SDLC): Opportunities, Risks, and the CxO Mandate
Who Controls the Code? Governance, Auditability, and AI in Regulated Environments
Unlocking Developer Potential: Experience, Velocity, and the Human Side of AI Adoption

TOGETHER WITH

GitLab Google Cloud
