A paradigm shift for true next-generation security

1:15 PM-1:45 PM

Introducing the Next-Generation Agentic SOC, a paradigm shift for enterprise security designed to counter the rising challenge of AI-powered threats. By leveraging Google Cloud Security solutions, high-performance AI, and comprehensive threat intelligence, organizations can achieve 100% visibility and operational efficiency. Learn how this approach reinvents the security economy, enabling proactive threat hunting, reducing risk exposure, and delivering predictable, cost-effective outcomes at scale.

DISRUPTOR

Threat Defense

1:50 PM-2:20 PM

Google Cloud Security Product Overview: Session focused on the security products that set up our MSSPs for agentic success (Agentic SOC, Gemini, Wiz integration, etc)

Networking Break

2:20 PM-2:40 PM

DISRUPTOR

Agentic Governance

2:40 PM-3:10 PM

As cyber threats accelerate to machine speed, enterprise leaders must rethink how their organizations detect, investigate, and remediate attacks.

Partners (specifically Tenex and Foresite) will each present distinct customer success stories and use cases. These sessions will be held separately to avoid potential friction between competing partners.
