NAVIGATING THE RAPID EVOLUTION OF SECURITY OPERATIONS: INSIGHTS AND BEST PRACTICES FOR CYBERSECURITY

September 11, 2024
5:30 PM-9:00 PM

Eastern Time

Unlike any other time in the last decade, the world of security operations is rapidly changing along with the unprecedented evolution of digital transformations and cloud security. .Join a group of your peers for dinner and a discussion around these latest trends and changes - as well as advice on best practices for navigating these necessary but difficult organizational issues. You'll also have the chance to hear lessons learned from Google's internal cybersecurity transformation and from PwC's extensive experience after helping many of the largest organizations in the world to navigate these changes.
